

Bring Your Own Device Policy- Grade 4 and Above

‘Bring Your Own Device Policy’ applies to Grades 4 to 12 students. This policy is implemented to allow the school to integrate current technology into lesson plans and provide access to online learning resources that would otherwise be unavailable within the classrooms.

Students need to bring their own laptops/tablets to school on a daily basis and use them following their teachers’ instructions.

The use of these electronic devices will be for educational purposes only.
